

## Tentative Schedule of Topics

Workshops with an asterisk after the title have been specifically designed to be accessible to members newer in service, while remaining engaging to our long-term trusted servants. Our hope is that these will attract the next generation of trusted servants to WSLD, expanding our base through mentorship. Workshops which say “panel” have either a panel of speakers or a panel presentation followed by a Q&A session. All other workshops are interactive, roundtable style, possibly with introductory presentation.
